Presidents Message

At 6:45 this morning the alarm clock next door awakened the neighborhood. These stirrings were noticed by my Ginger Tomcat, Pal, who jumped up on the bed to enjoy some cuddle-purr time. His sing-song vibrations let me know he was happy.

I've read that plants send out vibrations when they are happy that ward off diseases and pests. They also send vibes when they are sick or neglected that invite bugs.

My Geraniums look happy now. Lush and green with lots of new little leaves coming out. This a perfect time to prune and nourish and trim them into the shape I want them to grow.

I hope your New Year is filled with plenty of Cuddle-Purr time and Happy Vibrations.

Program

Happy New Years to everyone! Let's start the New Year off with a bang!

Over the summer Jean and I spent some time in the county exploring unique nurseries, and I have put together a slide show for the January meeting, along with a handout of their locations and websites.

If you have any pots that need drain holes bring them to the meeting and I will drill them. Hope to see you all at the meeting!
